Dear Keith,

I cannot begin to capture fully in words my excitement at the prospect of working with you on creating "Dying Is Not The Answer".

The last 35 years have been a mission for me, a journey whose goal has been to save the lives of those sensitive souls who live in depression and despair.

We have a chance to bring hope to the lives of those boys and girls, men and women, to whom death seems the only escape from pain.

This film can and should be a national effort, a catalyst for change in the way we treat those who need us most.

I look forward to the next steps!

Sincerely,
